## Miami Open Week program 2018

The 2018 Cañas Tennis Miami Open Week program has been designed by the successful and only member of the great "Argentine Legion" who decided to settle and establish his tennis academy in the United States, which has earned numerous achievements.

Enjoy this exciting tournament that brings lasting memories for "Willy", who managed to be a finalist in 2007 where he defeated for the second straight week former and undisputed ATP World N1, Roger Federer.

## About Cañas Tennis

Cañas Tennis fulfills a lifelong dream that Guillermo Cañas, Martín García and Gustavo Oribe all had in common: to create a path for young individuals to achieve success in tennis and all facets of life.

At the heart of the concept was the desire to create a support system that allowed each participant, whether they attended for a day, a month or years, to become a better prepared player and active citizen.

Student athletes are educated and prepared for success by combining access to the best facilities, the best performance training and sport-specific training with moral and intellectual development. Cañas Tennis embodies these values, which are the main principles behind the successful professional tennis career of Guillermo Cañas.

We are dedicated to educating the student athlete in all aspects of tennis. The program is athlete centered. Each athlete is tested and assessed so that an individual plan for success may be developed.

We are located in Miami, a prime setting conducive to developing tennis champions.

## Mission and Philosophy Statement

Cañas Tennis provides an extensive tennis program that focuses on the technical, tactical, physical and mental development of the player which is the main foundation of the Argentinean methodology of teaching, while fulfilling the holistic needs of each player in his/her quest to achieve the highest growth possible.

Cañas Tennis leadership devised a philosophy of coaching tennis through an "Integral System" in order to reach maximum success for each individual athlete.

Specific progression drills and techniques are developed so that each student understands the correct sequence of successful tennis to become the best player, as well as an active individual in life.
